the 1 english language bestseller in china the book that is shaping china s planning and policy for the future a gray rhino is a highly probable high impact yet all too often neglected threat kin to both the elephant in the room and the improbable and unforeseeable black swan gray rhinos are not random surprises but occur after a series of warnings and visible evidence the bursting of the housing bubble in 2008 the devastating aftermath of hurricane katrina and other natural disasters the new digital technologies that upended the media world the fall of the soviet union all were evident well in advance why do leaders and decision makers keep failing to address obvious dangers before they spiral out of control drawing on her extensive background in policy formation and crisis management as well as in depth interviews with leaders from around the world michele wucker shows in the gray rhino how to recognize and strategically counter looming high impact threats filled with persuasive stories real world examples and practical advice the gray rhino is essential reading for managers investors planners policy makers and anyone who wants to understand how to profit by avoiding getting trampled

who decides which facts are true in 1998 andrew wakefield a british gastroenterologist with a history of self promotion published a paper with a shocking allegation the measles mumps rubella vaccine might cause autism the media seized hold of the story and in the process helped to launch one of the most devastating health scares ever in the years to come wakefield would be revealed as a profiteer in league with class action lawyers and he would eventually lose his medical license meanwhile one study after another failed to find any link between childhood vaccines and autism yet the myth that vaccines somehow cause developmental disorders lives on despite the lack of corroborating evidence it has been popularized by media personalities such as oprah winfrey and jenny mccarthy and legitimized by journalists who claim that they are just being fair to both sides of an issue about which there is little debate meanwhile millions of dollars have been diverted from potential breakthroughs in autism research families have spent their savings on ineffective miracle cures and declining vaccination rates have led to outbreaks of deadly illnesses like hib measles and whooping cough most tragic of all is the increasing number of children dying from vaccine preventable diseases in the panic virus seth mnookin draws on interviews with parents public health advocates scientists and anti vaccine

activists to tackle a fundamental question how do we decide what the truth is the fascinating answer helps explain everything from the persistence of conspiracy theories about 9 11 to the appeal of talk show hosts who demand that president obama prove he was born in america the panic virus is a riveting and sometimes heart breaking medical detective story that explores the limits of rational thought it is the ultimate cautionary tale for our time

the expectations and living conditions of our society are uniquely unrealistic and destabilizing producing a techno precarious performance self that markets itself as a product gets addicted to almost anything and drives itself to exhaustion

the title story like most of the other pieces is character centered as a single mother wrestles with high tech taking over her town patent infringement is a fine if brief epistolary story on the subject the most famous little girl in the world is the story of the lifelong friendship of two women set against a background of alien contact first flight is an affectionate homage to the classic tom corbett space cadet tv show of the 1950s to cuddle amy is a powerful short short horror story about disposable children my mother dancing deals with a human race called on to seed with life a completely barren universe

this volume explores the impact of the covid 19 pandemic on the health safety and socioeconomic well being of community residents of selected countries around the world it is built on an overarching framework of studying community well being applied here to the analyses of one of the most significant crises of our time most important are the lessons learned from the experiences in these countries including insights and recommendations on how to mitigate future pandemics building on years of research each chapter is written by an accomplished scholar with interests and expertise on various assessments of community well being development in the country of study the authors share cases and analyses and highlight failures and successes they offer sound policy recommendations on how to restore the health safety and multidimensional wellness of community residents and how to decrease the likelihood and impact of future crises some of the policy recommendations in this multi country compendium can be used to assist crisis prevention and recovery beyond pandemics the volume shows how the lessons learned and shared from community responses to the pandemic can provide critical and useful policy insights to shape best practices in mitigating other disasters like hurricanes floods earthquakes tornadoes wars riots acts of domestic and international terrorism weapons of mass destruction and industrial accidents this is a must read for researchers

across the social sciences health sciences and management studies and for government and non government professionals involved in community health and well being

the success of the polio vaccine was a remarkable breakthrough for medical science effectively eradicating a dreaded childhood disease it was also the largest medical experiment to use american schoolchildren richard j altenbaugh examines an uneasy conundrum in the history of vaccination even as vaccines greatly mitigate the harm that infectious disease causes children the process of developing these vaccines put children at great risk as research subjects in the first half of the twentieth century in the face of widespread resistance to vaccines public health officials gradually medicalized american culture through mass media public health campaigns and the public education system schools supplied tens of thousands of young human subjects to researchers school buildings became the main dispensaries of the polio antigen and the mass immunization campaign that followed changed american public health policy in profound ways tapping links between bioethics education public health and medical research this book raises fundamental questions about child welfare and the tension between private and public responsibility that still fuel anxieties around vaccination today

this groundbreaking book invites world leaders to follow science yet urges an open dialogue in the pursuit of truth steering clear of big pharma s marketing propaganda john delves into how the universe perpetually reinvents itself in a steady state eschewing the traditional big bang theory through his father s concept of symmetrical impermanence si he posits that jupiter was once a binary twin to the sun which after collapsing in a supernova gave birth to the planets john tackles chalmers hard problem of consciousness using the wave particle interchangeability wpi principle found in electromagnetic fields the same principle that powers cell phones he theorizes that the music of life emanates from primary energy as electromagnetic waves which coalesce into a one mind comprising a nested hierarchy of sub minds according to his theory our brains transform these waves into protons constructing our bodies with conscious awareness and enabling us to experience and adapt to hostile environments he advocates for a campaign for open science and medicine cosam to foster a shift towards holistic thinking aiming to safeguard humanity s future

in bath i lay in a field with headphones on drunk and staring at an empty blue sky that reflected nothing of the chaos in the world below the fields flashed the seaweed green of a london train and i imagined my former life at the end of it but felt

more like it had been tied to the tracks and careered over at 100 mph after a wild decade of hedonistic city life that veered violently into trauma lucy holden was thrown back down the ladder to her parents house in a pandemic which paused the parties and forced her to ask herself how she'd become who she'd become grown up broken down completely lost then locked in lucy realises she can't make it up as she goes along forever and instead has to confront the darkness she's been running from her entire adult life in this raw hilarious and often emotional memoir about a young woman asking herself how long she has until her act cracks completely the mental health of a fast paced world that never sits still is called into question with charm and wit lucid addresses what it means to be young in today's society and where we can go from here

for readers of no cure for being human and simple self care for therapists a witty and compassionate field guide to the 10 realms of grief and how to navigate them yourself and with clients how do you practice good therapy when it's the end of the world as we know it and no one feels fine the planet is burning friends and family are falling to cults and qanon and we're all living through the collective trauma of a global pandemic among therapists and healers burnout is rampant hopelessness and despair are too in the grieving therapist psychotherapists larisa garski lmft and justine mastin lmft give voice to the difficulties of therapisng in today's world and offer a grief informed framework for taking care of yourself as you take care of others informed by narrative internal family systems fanfic and trauma sensitive therapy garski and mastin examine what it means to be a therapist at the end of the world or what feels like it they break down 10 realms of grief that are critical to understand and work with today but likely weren't taught to you in therapy school each chapter includes grieving tools that can be adapted for both client and therapist tips for supervisors and supervisees skills for maintaining healthy outside the office relationships support for current therapy students and therapists new to the field advice on how to hold space and work with clients who have the same questions and are navigating the same issues as you meditations on love life death and connection garski and mastin also share helpful guidance around working with clients whose social or political beliefs differ from yours when therapeutic self disclosure makes sense honoring the information that countertransference is trying to give you and how to sit with or step away from triggers in your work with humor compassion irreverence and more than a little whimsy the grieving therapist shows you how to show up for yourself and your clients in your own full humanity amidst it all
